Subject: [External] Objection on Duke Energy raising rates

My name is Karen Rogers and I live in Boiling Springs SC 29316. My number is 803-688-1234. I am not in favor of Duke Energy raising our rates during this time. There are people out here struggling to keep their lights on and feed their families. I don't understand why rates go up every year anyway. Don't you think your company has prospered enough off of everyone? I hope one day there will be another company for people to choose from because clearly this company is thinking about filling pockets instead of having some empathy for their customers during a time like this.
